

Mold Shield

- New ultra-dry formula with 2-year protection*
- No ozone depleting chemicals
- Non-penetrating, Will not bleed out and mark parts
- Neutralizes fingerprints
- Non-silicone, non-wax formulation
- Self-cleaning in start-up
- Seals out condensation
- Also available with red tinted formula
- Net Wt. 14 oz.

Mold Shield has a unique, extra-dry spray package, which delivers a dry mist spray which will not penetrate into moving mold parts, including ejector pin holes, slides, cams, etc. Conventional rust preventives may leach out of mold crevices and mark parts, resulting in lost production time and rejected parts. This special dry mist feature prevents marking of plastic parts when molds are put back in service. *Protects up to two years under normal indoor storage conditions.

Econo-Spray® Rust Preventive

- Blue tracing color
- Provides 3-year protection indoors
- Neutralizes fingerprints
- Self-healing
- No removal before using molding dies
- Harmless blue color indicates coverage
- Available in 12oz aerosol and 1, 5 and 55 gallon

Economical rust preventive quickly displaces moisture so you can spray damp metal without drying before spraying. It helps rust removal and is compatible with lubricating oil and greases.

No-Rust

- 5 year protection*
- No ozone depleting chemicals
- Non-silicone, non-wax formulation
- Neutralizes fingerprint acids
- Net Wt. 12 oz.

No-Rust is a one-step rust preventive that contains both neutralizer and rust preventive. It provides positive protection by displacing moisture from metal surfaces and adhering tightly to the surface. Ideal for mold and die protection, it works on stamping dies, stripper plates, jigs and fixtures, rubber mold dies, die casting dies, precision instruments, machine tools and machined or ground steel of all kinds. Accurate spray pattern concentrates protection in normally inaccessible crevices.

Quick RP Rust Preventive

- Ultra-dry formula with 2-year protection
- No chlorinated solvents
- No ozone depleting chemicals
- Non-penetrating
- Will not bleed out and mark parts
- Neutralizes fingerprints
- Non-silicone, non-wax formulation
- Self-cleaning in start-up
- Net Wt. 10 oz.

Slide Quick RP employs a combination of fast evaporating solvents and oils to set up quickly on your mold surfaces, providing immediate protection against moisture and light acids. This unique "dry" package makes clean-up quick and easy when the mold is put back into production, saving time and money *Protects up to two years under normal indoor storage conditions.

Acid Vapor Neutralizer

- Protection when molding PVC & flame-retardant resins
- No ozone depleting chemicals
- One-step rust preventive
- Net Wt. 11 oz.

Acid Vapor Neutralizer is formulated to protect stored plastic molding dies from corrosive attack by hydrochloric and hydrobromic acids, as well as most common atmospheric corrosives and fingerprint acids. Length of protection is dependent on amount of PVC and F/R being molded.

Penetrant Plus® Rust Preventive

- Non-silicone, PTE-based formulation
- Choice of spray or stream
- Dust free and Non-staining
- Harmless to most plastics, rubber, paint, etc.
- Cleans and dries out electrical equipment

Mono-molecular penetrating film frees rust-frozen parts. Lifts and replaces moisture with protective film. Lubricates without affecting performance of electrical equipment. Non-conductive because it has high dielectric strength and lubricates delicate electronic equipment. Protects up to six months under normal conditions.
